

NOTICE TO DOG OWNERS

Help Keep Our Water Clean – Pick Up After Your Dog

The Bristol-Burlington Health District (BBHD) reminds all residents and visitors that picking up after your dog is vital for public health and the environment.

When left on the ground, even in bags, dog waste can wash into storm drains and flow into rivers and streams which lead into our swimming and fishing waters.

 **Please remember:** 

- Always carry a bag to clean up after your pet.
- Never dump pet waste or bags into storm drains or catch basins.
- Dispose of pet waste or pet waste bags in proper trash cans.
